# TYPE STYLE CHART

All type styles are not created equal in the world of stamps. Fonts with serifs or feet should be large enough to imprint well. Sometimes serif fonts don't imprint well because the thin areas don't transfer into the polymer rubber. Be careful that the serif or script font you choose has a good thickness through-out. Sans-serif fonts usually imprint well however there should be enough space between the letters to allow for the ink to spread without bleeding with the other letters.

# PSI STAMPS

## pre-inked stamps

Our Pre-Inked brand creates three to five times the number of impressions of a traditional self-inking stamp. While you may be constantly replacing pads for "the other brand," our PSI just keeps going and going. No replacement pads are ever required, thus you eliminate wasteful plastic, foam, and ink ending up in landfills.

## WOODEN HANDLE STAMP

Handle Stamps, sometimes called "Wooden Handle Stamps" are the most economical method of imprinting on any surface. They have a variety of applications such as stamping quick-dry ink on industrial parts, marking non-toxic ink on skin, as well as, using fabric ink on arts and craft projects. Handle stamps are made to order and range from very small to large. Ink pads are sold separately and come in a variety of sizes and colors.

*Screen print minimum  
order is 12 pieces*

# EMBROIDERY

Embroidery pricing is based on how many stitches it takes to create your image. When you request an official quote for your embroidery project, please include the image you wish to have embroidered. If new artwork is needed art fees are based on time spent. For simple art there is a base set up fee of \$35.00.

The number of thread colors is unlimited. Price breaks are based on quantity.

A standard left chest 3.5" x 2" logo usually takes between 4,000 and 7,000 stitches, while a small quarter-sized image (a logo on a cap, collar, sleeve, left chest, etc.) can usually be done with 1,000 stitches or less. Please contact us for a quote, [allmark7@aol.com](mailto:allmark7@aol.com).

# GOT INK?

There are many different inks available. Different types of stamps & applications require different types of ink.  
**Be sure to use the correct type of ink with your stamps to ensure their quality and purpose.**

Under each ink name you will see, in parentheses, what that ink should be used for or which type of stamp to use with it. If you are not sure which type of ink you need feel free to contact us.
